Summary

#Cool, I'm a BUSINESS-ORIENTED-GUY that's why I know how to design intuitive, user-friendly website elements that boost your online visibility and increase conversions. I'm committed to turning your dreams into a captivating digital reality by skillfully fusing strategy, technology, and design.

Why You Should Hire Me…?

#With fired confidence I'm coming to light my experiences that I've the deepest skills and abilities to make any website without any destructions and hassles in a passionate way. Mainly my strength's source is I'm a SELF-LEARNER.

I have a lot of intensive deep knowledge about ….
React JS
JavaScript
TypeScript
GitHub
Html / Html5
CSS / CSS3
SASS
Redux
Bootstrap
Tailwind CSS
Email.JS
PSD, Figma, Sketch to Html
UI/UX Design
Researching Data
Open AI
And many more…

I have almost 2 years learning experience above those technologies. And also, I'm an enthusiastic guy who always being waited to learn new technology at any cost. I have approximately done 70+ self-

made website and others learning-based-practiced-website which I have already preserved on my GitHub account. Creating those websites, I had faced a lot of errors, bugs and finally solved those. Through solving problems I've gathered a bunch of knowledge and experiences.

What Will You Get…?
1. Unlimited Revisions
2. Fully Functional Mobile Friendly Website
3. Bug and error free website, as well any time problem solves
4. Master Responsive Website
5. On time delivery
6. Troubleshoot

If my aforementioned details make you a little bit sense, then we might make a quick conversation. I affirm you that I will try my level best to make your time, money, business, and affection more and more worthy.

Please keep me in touch with your concern and respect.
Thank You.
